

Session 8: Presentation of Group Work on Finclude Bank

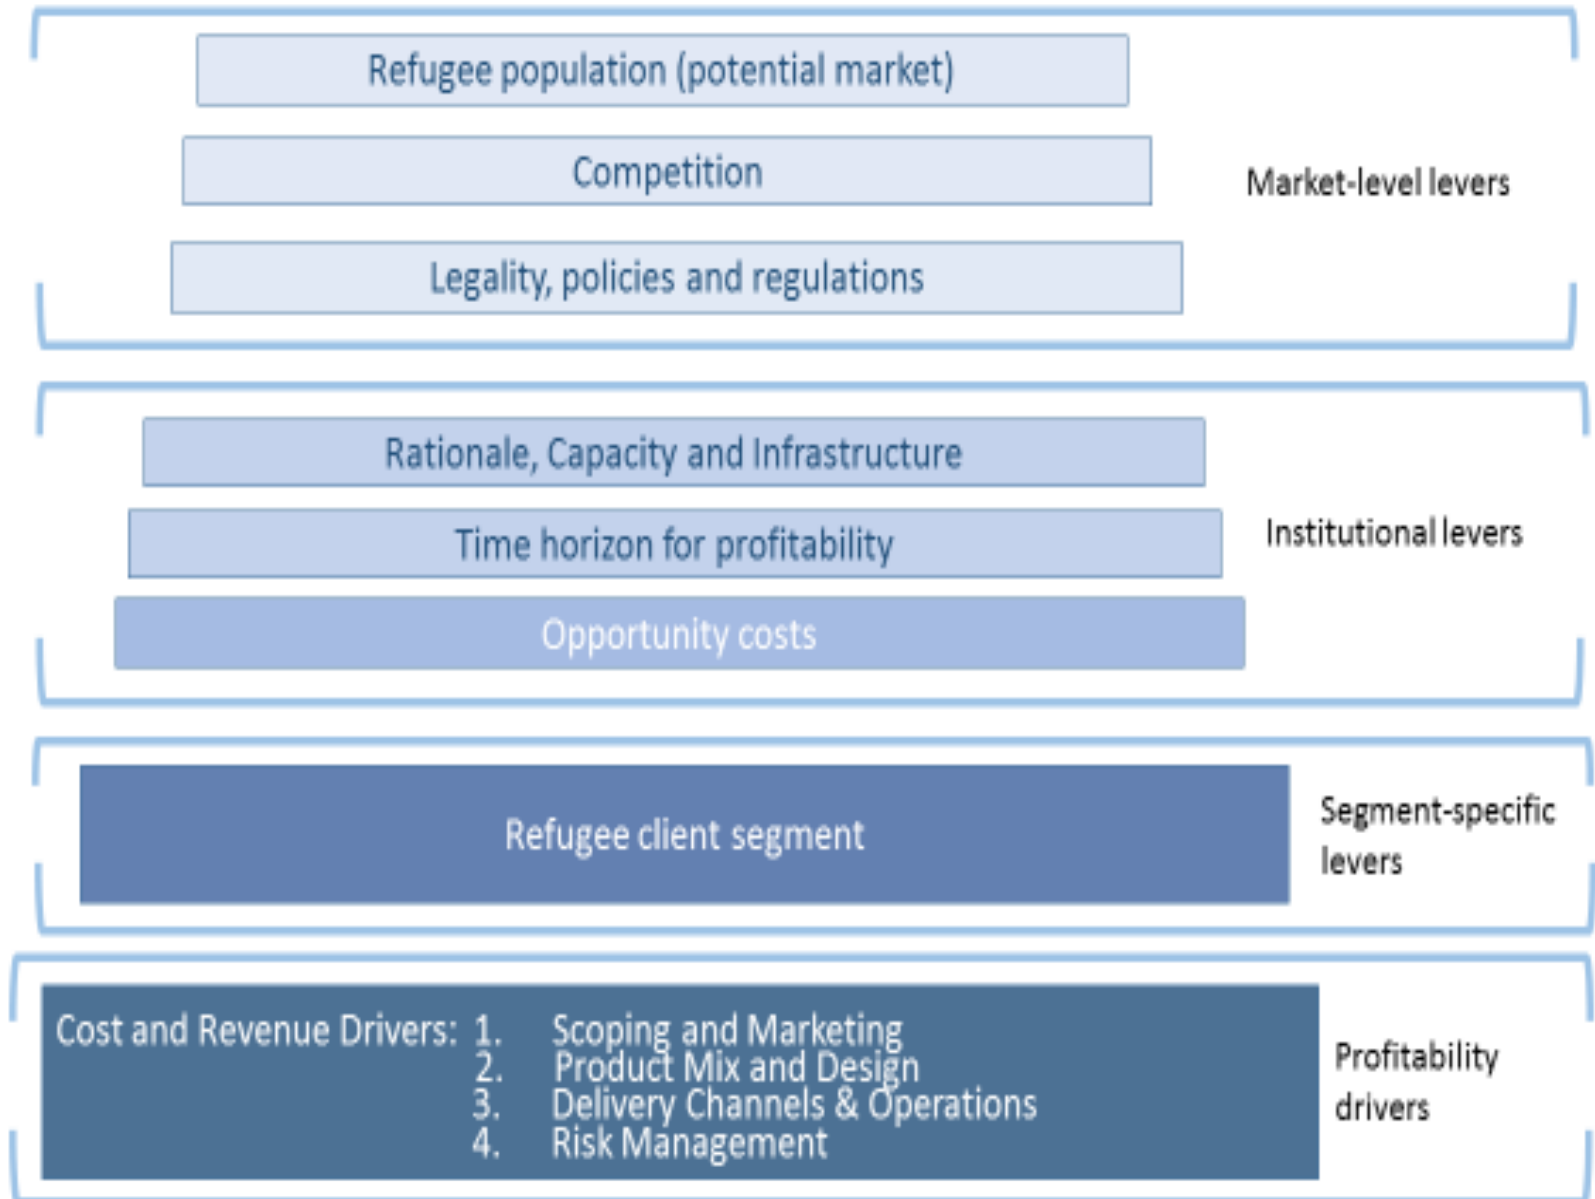

The Case of Finclude Bank

- The large, regulated bank requested TA to resolve problems they encountered at various stages of their MF4R inclusion process:
 - Group a: How do we get buy-in with internal resistance ?
 - Group b: How do we overcome regulatory barriers?
 - Group c: How do we adjust product terms?
 - Group d: How can we make NFS sustainable?
- 10 minutes for each group to present findings

**Scoping/
feasibility
phase**

**Strategic
planning,
pilot phase**

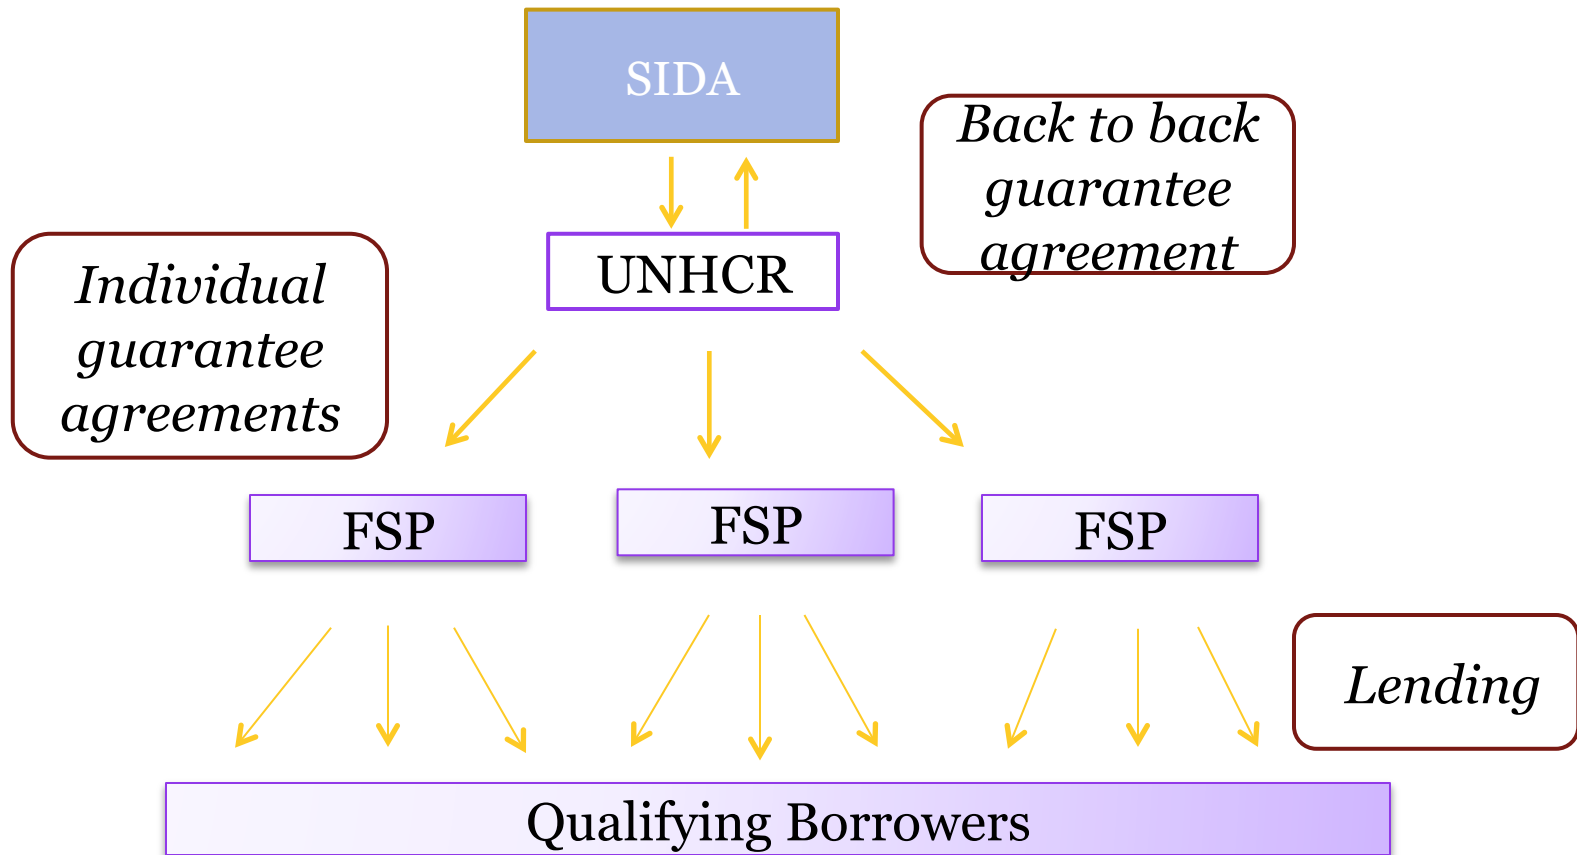

Welcome to UNHCR

- Micol Pistelli was recruited by UNHCR's livelihood unit in June to design a new Credit Guarantee facility, co-funded by SIDA

Credit Guarantee Facility SIDA – UNHCR

- ✓ SIDA and UNHCR are partnering on a credit guarantee scheme for FSPs interested in providing micro and small loans to refugees to run a business.
- ✓ SIDA will fund the project (\$10m) and UNHCR will be the implementing partner.
- ✓ The guarantee will be piloted in early 2017 with 3-4 FSPs that show both financial viability and good social performance practices.
- ✓ SIDA and UNHCR are in the process of structuring the guarantee scheme. An announcement will be made in the Fall about the facility.
- ✓ UNHCR will be supporting FSPs with data supply, logistics and training and will be monitoring the project's goals on an on-going basis. However the selection of the clients will be entirely in the hands of the FPS.

Overview CGF SIDA-UNHCR (pilot)

SIDA-UNHCR's Credit Guarantee Facility

- Comments and Questions?
